SQL and Relational Databases 101 - IBM: [View Certificate](#)

Management Consulting - PWC: [View Certificate](#)

Data Analytics - Deloitte: [View Certificate](#)

Projects

Kaggle Project - Delhivery Dataset

- Analyzed logistics data to uncover trends in delivery times and shipment volumes
- Performed data cleaning, exploratory data analysis (EDA), and visualized key metrics using Python libraries like Pandas, Matplotlib, and Seaborn to support operational efficiency.

Project Link

Power Bi Project - Netflix Dashboard

- Developed an interactive dashboard using Power BI to analyze Netflix content data.
- Visualized genre distribution, content type trends, and release year patterns to provide insights for business and marketing strategies.

Project Link

Power Bi Project - Disney Plus Dashboard

- Created a dynamic Power BI dashboard to explore Disney+ content data.
- Analysed content types, genres, and release years to identify viewer preferences and content trends for strategic decision-making.
